

## And Next Time You're In The Market For A New Vehicle...

Try to purchase the most fuel-efficient car that meets your needs. By doing this you will reduce the environmental impact of your vehicle and save on your annual fuel bill.

Choose a vehicle that fits your everyday needs in terms of size and power. Remember, when you buy something bigger for the extra size or that extra power 'just in case,' you wind up paying for it every time you fill.

## Regional Office

### Northern Region

PCRA, Sanrakshan Bhavan,  
10 - Bhikaiji Cama Place, New  
Delhi- 110 066  
Phone: 91-11-26198856  
Fax: 91-11-26109668  
Email : pcra@pcra.org

### Eastern Region

No. 2, Gariahat Road (South),  
Dhakuria, 6th Floor, IOCL  
Bhawan, Kolkata -700068  
Phone: 033-24145092  
Fax: 91-33-24145091  
E-mail: pcraer@pcra.org

### Western Region

C-5, Kesva Building, Gr Floor,  
Bandra Kurla Complex,  
Bandra East, Mumbai-400051  
Phone: 022-26592181  
Fax: 022-26590034  
E-mail: pcrawr@pcra.org

### Southern Region

TMB Mansion, 1st Floor, 739,  
Anna Salai, Chennai-600 002  
Phone: 044-26592181  
Fax: 044-28521662  
E-mail: pcraer@pcra.org

## MAINTENANCE TIPS

(cars/two-wheelers / bus and truck fleet owners):

Keep up with your vehicle's maintenance schedule.

Use recommended grade of lubricating oil.

Perform a periodically maintenance check that includes:

- Checking your tyre pressure
- Checking for fluid levels and for leaks
- Checking under your hood for cracked or split spark plug wires, radiator hoses, or loose clamps and corrosion around the battery terminal
- Testing brakes and keeping wheels aligned

# Think sustainable, Act responsibly.

## Climate Change And On Road Transportation

Ladies and Gentlemen,  
Namaste!

## CLIMATE CHANGE AND ON ROAD TRANSPORTATION:

- **Domestic Automobile Sales** have registered a steady growth each year over the last six years (the number of registered vehicles on Indian roads has increased from 5.5 cr. in 2001 to 21 cr. in 2015). This trend clearly indicates a complimentary increase in the consumption of oil and gas. The socio-economic implication of using fuel in the transport sector becomes extremely significant for India.
- **Socially significant** because of its negative impact on the environment, due to burning more fossil fuel. Studies have proved it beyond doubt that climate change is unequivocal, and human activities, particularly emissions of carbon dioxide, are very likely to be the dominant cause.
- **Climatic Changes** are observed in all geographical regions:
  - the atmosphere and oceans are warming,
  - the extent and volume of snow and ice are diminishing,
  - sea levels are rising and weather patterns are changing.
- **Economically significant** because of the massive import bill the country has to bear on crude oil and other petroleum products.

Category (Registrations Per Annum)	2012-13	2013-14	2014-15	2015-16	2016-17	2017-18
Passenger Vehicles	26.7	25	26	27.9	30.5	32.9
Commercial Vehicles	7.9	6.3	6.1	6.9	7.1	8.6
Three Wheelers	5.3	4.8	5.3	5.3	5.1	6.4
Two Wheelers	137	148	159	165	176	202
<b>Grand Total</b>	<b>178</b>	<b>184</b>	<b>197</b>	<b>205</b>	<b>219</b>	<b>250</b>

Category	% (in 2017-18)
Passenger Vehicles	13
Commercial Vehicles	3

## IMPACT OF CLIMATE CHANGE

- Computer models of the climate changes used by the IPCC (UN Intergovernmental Panel on Climate Change) indicate that if the current greenhouse gas emission scenarios continue over the 21st century, impacts by the end of this century are projected to cause a global average temperature rise from 2.6–4.8 degrees Celsius (°C) higher than present, and sea levels 0.45–0.82 metres higher than present.
- Roads, rail and airports near the coast will become more vulnerable to flooding and erosion as a result of sea-level rise and extreme weather events, as will ports.
- Ongoing sea level rise have already submerged several low-lying islands in the Sunderbans in West Bengal, displacing thousands of people.
- Around seven million people are projected to be displaced due to, among other factors, submersion of parts of Mumbai and Chennai, if global temperatures were to rise by a mere 2 °C.
- If severe climate changes occur, Bangladesh will lose land along the coast line.

## PCRA INITIATIVES TOWARDS FUEL CONSERVATION IN TRANSPORT SECTOR

NOW, IT IS YOUR TURN TO BE AN ECO-DRIVER  
(CAR AND TWO WHEELER DRIVERS)

Turn off the Engine at Red Light with stopping time more than 15 seconds.

Drive Safely at Moderate Speeds and Avoid sudden acceleration and sudden brakes.

Use 'car-pool'

Lighten your load when possible and avoid lugging around extra weight.

Reduce your use of power-consuming features (i.e., Air conditioning) to reduce the extra load on the engine & to reduce fuel consumption.

Plan your trips on less congested routes even if little longer or faster by using Mobile App.

Walking, cycling and rapid transit/public transport can bring great health benefits.

Use clutch pedal only to shift gears.

Always use the Gears as per vehicle speed for better fuel efficiency.

Do not drive Rash & Zigzag.
